Hassle-free Claims
Reducing Cost on the End User

A hand holding a smartphone that displays a cracked windshield of a blue car, with the real car visible in the background. The phone is held in the foreground, and the background shows a blue car parked in a lot with trees and a building in the distance. A white geometric shape is overlaid on the image, framing the phone and the car.

DAMAGE REPAIRER SOLUTIONS

With effective offerings like IT tooling and component identification software, AutoFacets ensures that expenses are kept well within the limits along with the reduced time of operation at the repair center. We establish a single point of connection in collision emergencies and our Customer Delight solution provides one of a kind customers experience.

CONNECT. ENGAGE. DELIVER

Technologies, their behaviour and how people interact with them, we have been a witness to it all, since 1997.

Being Digital in the true sense, we enable our customers to transform their business ecosystem into more automated, sustainable, competitive, profitable and customer-centric by leveraging cutting-edge technology solutions.

Backed by extensive experience, we rapidly adapt to fast-moving and chaotic markets with our proven Solution Consulting practices. This enables us to unravel and transform the 'Digital Spaghetti' challenges that today's organizations endure.
