CENTER OF EXCELLENCE (CoE)

Center of Excellence (CoE) engagement model involves an expert team of business and technology working with the client to understand and articulate business requirements, manage relationships, and establish engagement rules. The Core team acts as the client's extended arm, understanding and translating business requirements into technological solutions.

Higher Accountability

- Direct involvement in planning
- Constant evaluation of strength & weakness; Reduced Risks
- Transparent & regular task sheet

Continuous Development & Delivery

- Less time required to roll-out new features
- Resources have deep familiarity
- Access to Best Practices
- Well structured, regular meetings & status review sheet

Cost Effectiveness

- Gain productivity with long term team deployed
- More economic than headhunting individual developers

Faster & Flexible Workflows

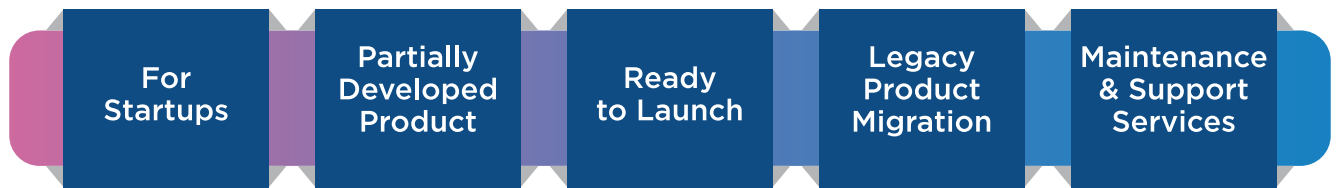

- Teams are more agile
- Open to iterations in projects scope
- Easy resource scalability

PRODUCT ENGINEERING

We provide services for entire product lifecycle, starting with conceptualization, product vision, roadmap, the delivery phase, and further support to ensure it is geared for long-term performance. We help unleash intelligent enterprise with the help of innovation and emerging technology.
